

## VALLARTA UNIFIED HEALTH SOLUTIONS

Medical Services Coordinator

### A Message from Our Founder:

Ever imagined a seamless, cost-effective journey for your medical aspirations? Picture this: top-notch care, safety that rivals or surpasses what you'd get in the US, and all of it at a fraction of the cost. Would you seize that opportunity? That's precisely what I envisioned and brought to life through Vallarta Unified Health Solutions.

When I first landed in Mexico, I was navigating uncharted territory in its medical landscape. Uncertainty lingered, but over my 5+ years in Puerto Vallarta, I've discovered something remarkable. Medical procedures here match or even surpass the standards set in the US. Yet, I realized the critical importance of cautious decision-making when it comes to choosing the right medical team. The wrong hands can jeopardize your health. Sanitary lapses or inadequate post-operative care can turn affordable treatments into nightmares. My mission is to prevent that. Enter Vallarta Unified Health Solutions — your gateway to fulfilling medical needs without compromising on your health and safety.

Before diving into this venture, I spent nearly a decade as an attorney in Washington state, where I was able to exercise my passion for helping individuals and problem-solving. That same passion now fuels my role here, ensuring your medical journey is safe, effective, and affordable.

### A bit about my journey:

Long Island, New York, was home growing up. Later, Bentley College in Boston granted me a Bachelor's in Business Management in 2005. I returned to New York briefly, delving into the legal profession before the allure of Honolulu, Hawaii beckoned. Nearly six years of diverse roles in the sunshine followed, until law school at Touro College Jacob D. Fuchsberg Law Center on Long

Island captured my focus. Post-Bar Exam, Seattle welcomed me as a practicing attorney in December 2015. A year later, Jude, my son, came into this world.

Seattle's charm held me until the call for a change grew irresistible. With no prior Mexico experience, I took a leap into Puerto Vallarta. It wasn't until five months before my move that I explored Puerto Vallarta to ensure it felt right. My Spanish was rudimentary, but the sun beckoned. What I found in Puerto Vallarta was life-altering—a place where I found roots, embraced the culture, climate, and everything this vibrant city offers.

Puerto Vallarta became our haven, confirming that this leap was the best decision for both Jude and me.

Welcome to Vallarta Unified Health Solutions — where your medical needs meet safety, affordability, and care. Let's make your medical journey hassle-free!

Warm regards,

Matthew Werter, Esq.
